

EXPLORATION WORK ANNUAL PLANNING

SECTION 1 – IDENTIFICATION

Name of the business	Québec Enterprise Number (NEQ)	Client number
----------------------	--------------------------------	---------------

Li-FT Power Ltd	1176705532	0000101316
-----------------	------------	------------

Last name of contact person	First name of contact person
-----------------------------	------------------------------

Gilbey	Jonathan
--------	----------

Address (number, street, rural route or P.O. box)	Apt.	City, town or municipality
---	------	----------------------------

1218-1030 West Georgia St	Enter text	Vancouver
---------------------------	------------	-----------

Province	Country	Postal code	Telephone (mobile)	Telephone (office)	Ext.
----------	---------	-------------	--------------------	--------------------	------

British Columbia	Canada	V6E 2Y3	604 367 2626	604 609 6185	0
------------------	--------	---------	--------------	--------------	---

Email address

jonathan@li-ft.com

Company website

www.li-ft.com

SECTION 2 – WORK LOCATION

Name of the project

Tilly

NTS mapsheet

033H01 – Lac Orillat, 023E04 – Lac Joubert, 023E05 – Lac Dalmas

Regional county municipality

Jamésie

Municipality

Eeyou Istchee Baie-James

SECTION 3 – WORK PLANNING FOR THE NEXT 12 MONTHS

For each planned work, indicate the expected completion dates.

Start date of the 12-month period:		
<input checked="" type="checkbox"/> Examination of rock outcrops	From: 2025-08-01	To: 2026-10-31
<input checked="" type="checkbox"/> Rock sampling	From: 2026-08-01	To: 2026-10-31
<input type="checkbox"/> Line cutting	From: Select date	To: Select date
<input checked="" type="checkbox"/> Geological survey	From: 2026-08-01	To: 2026-10-31
<input checked="" type="checkbox"/> Geochemical survey	From: 2026-08-01	To: 2026-10-31
<input type="checkbox"/> Airborne geophysical survey	From: Select date	To: Select date
<input type="checkbox"/> Geophysical survey (surface and in drillholes)	From: Select date	To: Select date
<input type="checkbox"/> Drilling carried out in overburden and in rock*	From: Select date	To: Select date
<input type="checkbox"/> Rock stripping*	From: Select date	To: Select date
<input type="checkbox"/> Bulk sampling*	From: Select date	To: Select date
<input type="checkbox"/> Seismic refraction geophysical survey*	From: Select date	To: Select date
<input type="checkbox"/> Loose deposit excavation*	From: Select date	To: Select date
<input type="checkbox"/> Land survey work	From: Select date	To: Select date
<input type="checkbox"/> Peat-bog survey work (s. 69 of the Mining Regulation (9.1° to 9.5°))	From: Select date	To: Select date
<input type="checkbox"/> Rehabilitation and restoration work	From: Select date	To: Select date
<input type="checkbox"/> Securing work	From: Select date	To: Select date
<input type="checkbox"/> Underground exploration work	From: Select date	To: Select date

* Work subject to an authorization for impact-causing exploration work.

SECTION 4 – PLANNED WORK DESCRIPTION

Wanted substances

Spodumene

Type of equipment used (drone, helicopter, ATV, trucks, drill rig, dynamite, etc.)

Helicopter (1-2)

**Hours and period of operation of machinery
(12 hours a day, 24 hours a day, 5 days a week, 7 days a week)**

12 hours a day, 7 days a week

Scope of planned work (number of workers, area, volume, etc.)

12-15 workers, geologists and field technicians

SECTION 5 – STATUS OF EXPLORATION PROJECT

Summary of previous work

A prospecting campaign was undertaken during the summer of 2023 on the Tilly property. The work was carried out over 12 days by a team of two geologists, which amounts to 24 man-days of work. To this figure, 11 man-days should be added for visits made by company personnel. A spodumene-mineralized zone was discovered. Associated with this zone, purple fluorite, green tourmaline (elbaite), garnet, and purple lepidolite were found. No fewer than 12 pegmatite outcrops were sampled. 24 channel samples and 55 other selected rock samples were collected. The highest lithium values yielded 5.9% lithium oxide in one chosen sample, while the trenches yielded 7 meters with an average content of 1.43% lithium oxide

SECTION 6 – DOCUMENTS TO JOIN

Map in PDF format¹

Shapefile (DBF, PRJ, SHP, SHX)²

¹ Exploration property map with the location of the planned work.

² The shapefile must include the property's exclusive exploration rights numbers and the location of the planned work.

SECTION 7 – STATEMENT FROM THE REPRESENTATIVE

I attest to the accuracy of the information provided herein.

Date: 2026-06-02

Signature: 

Name in block letters: Jonathan Gilbey

Professional title: Exploration Manager

This form, along with the PDF map and shapefile, must be emailed to the Indigenous communities and local municipalities affected by the work.
